March Parent-Teacher Conferences Special Edition

Free, Interactive Web-based Test Prep

The interactive, self-driven test prep tab contains practice that is categorized by grade level and includes full practice tests in both ELA and Math.

New on the Media Center Page (Reference Tab)...

Webmath is a math-help web site that generates answers to specific math questions and problems, as entered by a user, at any particular moment. The math answers are generated and displayed real-time, at the moment a web user types in their math problem and clicks "solve." In addition to the answers, Webmath also shows the student how to arrive at the answer. <http://www.webmath.com/>

Technology Goals

- Students will use technology tools to enhance learning, increase productivity, and promote creativity.
- Students will prepare publications and will produce other creative works such as slide shows.
- Students will use the internet to research information as well as a learning tool.
- Students will use web-based programs and tutorials to practice their keyboarding skills.

STUDY ISLAND (Grades 2-6)

Study Island Features:

Students in grades 2-6 can access the program by simply logging on to www.studyisland.com, where they will find each topic organized with a lesson, assessment questions, and explanations. The mastery of these topics will help students gain confidence when taking the New York State 3 through 8 Assessments and Regents Examinations.

- Web-based instruction, practice, assessment and reporting built from New York State's standards
- Rigorous academic content that is both fun and engaging
- Research-based with proven results for all students
- Easy to use (in the lab, classroom, library or home)
